PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science undergraduate with hands-on experience in **MERN Stack**, **Machine Learning**, and **Deep Learning**. Skilled in architecting AI web applications, implementing secure backend services, and delivering data-driven software solutions. Strong analytical and problem-solving abilities with a commitment to designing reliable applications.

PROJECTS

AI-Powered Smart CRM

MERN Stack

- Engineered a **MERN Stack**-based CRM platform featuring **JWT Authentication**, **Role-Based Access Control**, and **RESTful APIs** for secure lead management.
- Leveraged the **OpenRouter API** to generate **AI-driven lead summaries**, **customer insights**, and personalized follow-up **email recommendations**.
- Deployed the frontend on **Vercel** and the backend on **Render**, ensuring reliable cloud deployment and seamless accessibility.

Plant Disease Recognition

Deep Learning

- Designed a **CNN-based** plant disease recognition model capable of classifying multiple leaf diseases with **85% classification accuracy**.
- Constructed a complete deep learning workflow including image preprocessing, normalization, data augmentation, model training, and evaluation using **TensorFlow/Keras**.
- Delivered a **Streamlit** application for real-time disease prediction with confidence score visualization through image uploads.

Online Voting System

Django, MySQL

- Engineered a secure online voting platform using **Django** and **MySQL** with voter registration, candidate management, and election administration.
- Integrated **authentication**, vote validation, and **one-person-one-vote** mechanisms to maintain election integrity.
- Designed an **administrative dashboard** for election management, voter monitoring, and real-time result visualization.

CERTIFICATIONS

Developing Front-End Apps with React

Coursera-IBM

Backend App Development with Node.js and Express

Naan Mudhalvan-IBM

Python - Intermediate Level

Udemy

Artificial Intelligence Fundamentals & Generative AI

IBM SkillsBuild | Infosys Springboard

EDUCATION

B.Tech in Artificial Intelligence & Data Science

Madras Institute of Technology , Chennai

📅 2023 – 2027

CGPA: 7.79/10.0

Higher Secondary (Class XII)

Jayam Matric Higher Secondary School

📅 2022 – 2023

Percentage: 96.5%

TECHNICAL SKILLS

- Programming Languages:** C, C++, Python
- Web & Backend:** HTML, CSS, JavaScript, React.js, Node.js, Express.js
- Databases:** MySQL, MongoDB
- Tools:** Git, VS Code, Postman, Streamlit

SOFT SKILLS

- Problem Solving
- Communication Skills
- Collaboration & Teamwork
- Presentation Skills

COURSEWORK

- Data Structures and Algorithms
- Object-Oriented Programming
- Operating Systems
- Database Management Systems
- Machine Learning and Deep Learning

ACTIVE ROLES

- National Service Scheme (NSS)**
Volunteer (Since 2023)
- CS-MIT Club** Member (Since 2024)

LANGUAGES

- Tamil** – Native
- English** – Professional
